

# Construction

Paton is an integrated Engineering, Procurement and Construction provider in process control, automation and electrical installations. We offer a complete portfolio of services in alignment with our clients in the energy and process industries to improve and sustain our customers' assets.

Paton's is committed to safety with 35 years without a Lost Time Injury. We empower individuals to employ safe and environmentally responsible practices. We passionately promote the health and welfare of our teams and community.

Our engineering, procurement and construction groups work together to maximize safety and constructability in our design and installations. We excel at high quality and timely installation and have the unique ability to perform full EPC projects.

Paton forges strong mutually beneficial, long-lasting relationships, built on trust and respect. By listening, we are able to deliver effective solutions, which are aligned to our customers' need.

## Installation Service Offerings

- > Process Control & Automation
- > High Voltage & Low Voltage for Substation & Power Distribution
- > Electrical Heat Tracing
- > Fiber Optic Systems
- > Control Cabinets & Marshalling Panels
- > Hazardous area equipment
- > UPS Systems & Batteries
- > Instrument & Electrical Infrastructure

## Fabrication Services

- > Procurement & Integration of Marshalling Panels, Control Systems, Local Control Panels & Network Panels
- > Factory Acceptance Testing

## Procurement Services

- > Materials Management
- > Subcontracting

## Construction Management

- > Construction & Project Management
- > Field Safety Management
- > Project Controls
- > Quality Assurance/ Quality Controls

## Engineering

- > Engineering Design
- > Commissioning & Start-Up Support
